Impsport Clothing Size Information

When taking your measurement it is important that you measure your actual body size and base your order on this measurement. Patterns for each different garment allow for the different fits required, track vests and road jerseys are close fitting, jackets are looser to allow for undergarments etc. Size chart below. Children's sizes are available but may be limited as to how small the design will fit on to. Measurements are in inches (centimetres). We cannot accept responsibility if you order the wrong size but will try to help to find someone items may fit.
